

# Tongues of Flame: The Flow of Love and Light

*Chant, Movement and Contemplative Prayer with the Aramaic Jesus*

June 7-9 2019

Lioba Monastery

Egmond Binnen, Holland

With Saadi Neil Douglas-Klotz

After the event of Easter, Jesus' students experienced a rebirth of love and light in the celebration we call Pentecost. It enabled them to understand each person at the heart level, beyond language.

In the beautiful Lioba Benedictine monastery, we will return to some of Jesus' basic teachings and practices, as seen through his Aramaic language. We will re-visit many of the earlier chants and Dances of Universal Peace based on his sayings and experience them in a deeper way, alternating movement, chant and silent contemplation. Through these pathways, we can also experience the "tongues of flame" that Yeshua left in his wake, in our hearts and minds.

This is a healing journey that takes us to deepest part of ourselves and then resurrects us in power and joy. Whether or not you have joined in these Aramaic retreats previously, this is a wonderful doorway into Jesus' native spirituality and way of meditation.
